

Student Assistant Needed

Geometric Design of Roads and Railways CTB3370

Are you skilful in using AutoCAD and Civil3D for designing roads?

Would you like to earn some money during the 3rd quarter of the semester?

We are looking for a student assistant to help bachelor students in AutoCAD and Civil3D during the lab hours of the geometric design of roads and railways course in the 3rd quarter of 2016.

The student assistant will need to be present during the lab hours. The lab hours are twice a week, 4 hours each lab session. Your task would be to assist students who work on their design projects in the course.
